## PRECAUTIONARY STATEMENTS

### Hazards to Humans and Domestic Animals

#### CAUTION.

Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

#### Personal Protective Equipment (PPE)

Applicators and Other Handlers must wear:

-Long-sleeved shirt and long pants

-Shoes plus socks

#### Agricultural Use Requirements

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), notification to workers, and restricted-entry interval. The requirements in this box apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow workers entry into treated areas during the Restricted Reentry Interval (REI) of 4 hours.

**Exception:** if the product is soil-injected or soil incorporated, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area if there will be no contact with anything that has been treated.

#### User Safety Recommendations

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Wash the outside of gloves before removing.

#### Environmental Hazards

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### Cutting Plants

Take cuttings from healthy plants and keep fresh by immersing cut ends in water or by wrapping the stems in a wet cloth until they are ready to be dipped into Root It™. Make diagonal cuts to stems. Stem ends can be re-cut prior to dipping into Root It™. Do not keep cuttings in a closed container for an extended period of time. To prevent excessive wilting during the rooting phase, spray the stems frequently with water, cover with moist cheesecloth, or cover with a humidity dome.

#### Application Instructions

Dip the cut end of the stem into Root It™ for 3 to 5 seconds. Stems can be dipped individually or in bunches. Dip only the part of the plant that is to be placed into a rooting medium. After Root It™ has been applied; place the cutting into a rooting medium.

Depending on the species, rooting can take days, weeks, or months. Transplant cuttings once they are rooted. Root It™ may not work on some species of plants; therefore, experimentation may be necessary to ensure efficacy.

#### STORAGE AND DISPOSAL

**Do not contaminate water, for or feed by storage or disposal.**

**Pesticide Storage:** Store only in original container in a cool dry place out of the reach of children and out of direct sunlight.

**Disposal: If empty:** Non refillable container. Do not reuse or refill this container. Offer for recycling if available. **If partially filled:** Contact local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

#### WARRANTY

Notice: To the extent consistent with applicable law, buyer shall be solely responsible for any and all injury, loss, or damage resulting from the use of this product in any manner that is inconsistent with the label directions or cautions. The retail price of the product is K&W Agrochemical's maximum liability.
